Height: 9.5"

DADS offers a wide variety of furniture legs to complement the four ottoman forms shown above or to add to your own custom or reupholstered project.

Our legs are constructed of quality alder or rubberwood and are pictured in unfinished, walnut, and cherry as available. New chrome legs are also available. Dimensions are listed with each leg by the following format: Height X (Widest Point-Base). Finishes and dimensions may vary slightly from piece to piece with wooden legs as in any hand crafted item.

DADS proudly presents ottoman forms for your own upholstery applications. Available in four styles, DADS ottoman forms are filled with high density polyurethane foam and covered with a cloud of down, feathers and clustering fiber for added luxury. Select an ottoman from the styles above and legs* on the following pages then combine with the fabric of your choice to create a custom look. Embellish even further with trimmings and create an heirloom! All ottomans have a wood perimeter making it easy to staple or tack product anywhere.

* DADS Ottomans are specially designed for use with DADS Decorative Legs. However, we do not recommend the following legs for use with ottomans: L15A-L60A, LA9500, LB2060, LB3060, LL150, LQL700, LQR700, and LT3067.
